

Jérôme Jules Georges Flesch

Route nationale 18
68600 Biesheim
FRANCE
Tel: +33.6.88.72.59.78
Email: jflesch@gmail.com

Objective: To expand my knowledge of computers, networks and programming by training with one of the major and most innovative actors of the Internet.

Education:

- Since 2005 Preparing a degree of software engineering.
Université de Technologie de Belfort-Montbéliard (UTBM), France.
- 2003-2005 Two-year technical degree (license) in telecommunications and networking (DUT GTR).
IUT of Colmar (UHA), France.

Work experience:

- 9/2006 – 2/2007 **NetASQ**, Lille, France
Software Engineering Intern: Creation of an object database, accessible to different process and services used on NetASQ firewalls (C/Unix programming)
- 4/2005 – 6/2005 **Subatomic Research Institute (IReS)**, Strasbourg, France
Engineer assistant / Intern: Web interface prototyping, using J2EE technologies, for the Compact Muon Solenoid (CMS) tracker configuration database exploitation. The CMS is an experiment made by IReS which is part of the Large Hadron Collider (LHC) made by CERN.

Skills and Interests:

- Language: French (Native speaker)
English (Read, written, spoken. Scored 780 at the TOEIC evaluation)
German (Basic knowledge)
- Member: Co-network administrator of a student computer network (Sept. 2005 - February 2007)
Secretary of the computer club at the IUT of Colmar (April 2003 – April 2004)
- Competition: Prologin 2005 finalist (national programming competition)
